High Mileage Oil

If your car has been around the block more than a few times, it needs more protection than a new car does. As your engine ages, seals and gaskets can become worn and leaky. That can be a problem. Fortunately, High Mileage oil offers the additional protection older cars need.

- Defends against wear
- Formulated for cars with 75,000+ miles
- Provides outstanding wear protection and viscosity control
- Helps maintain older engine seals to minimize oil leaks
- Reduces oil consumption by decreasing loss through evaporation
