## SERVICE CENTER

OPERATED BY LUBE PIT STOP, INC.

## Transmission Service

**Total Fluid Exchange Service \$139.95\*** plus tax and disposal

Using the latest state-of-the-art technology, we will install a safe and effective cleaner to suspend harmful varnish and sludge from the transmission valve body, torque converter and lines. We will then flush and fill with new transmission fluid along with a fluid conditioner. This service is the manufacturer's recommended level of service and is considered the industry standard.

- Transmission Cleaner is installed
- Transmission cooling line is connected to a specialized fluid exchange machine
- While the engine is running and transmission is operating, approximately 15 quarts of new fluid is flushed through the valve body and torque converter
- Install Transmission Conditioner
- Service takes 20-30 minutes for most vehicles
